Amendment

Applicant hereby amends the above-identified patent application as follows:

E1
27. (Thrice Amended) A skin engaging member in the form of a narrow elongated strip of dimensions suitable for placement on a razor cartridge, said skin engaging member comprising a water insoluble polymer, an amount of a water soluble shaving aid and means in said skin engaging member for gradually indicating a change in said amount of said shaving aid.

E2
30. (Amended) The skin engaging member of claim 29 which is adapted to change color by erosion of the skin-engaging layer during shaving to indicate the end of its effective life.

E3
31. (Thrice Amended) A razor cartridge comprising a blade and a skin engaging member affixed adjacent said blade, said skin engaging member comprising a water insoluble polymer, an amount of a water soluble shaving aid and means in said skin engaging member for gradually indicating a change in said amount of said shaving aid, said means for indicating comprising at least one coloring agent, said skin engaging member comprising at least one skin
